TAHUN AJARAN 2021/2022

The screenshot shows the 'Service Studio Overview' course page on the OutSystems Community platform. The page features a dark header with the OutSystems logo and navigation links. The course title 'Service Studio Overview' is prominently displayed, along with a 4.7-star rating and 8,677 ratings. A 'Rate course' button is visible. The course description states it will help users get started with the main OutSystems development environment. A list of course topics is shown, including 'Service Studio Overview', 'Service Studio Walkthrough', 'Application Layers', '1-Click Publish', and 'Quiz'. On the right, a 'This course awards points' section indicates 1.5 points earned, and a 'Course Complete' section shows 100% completion. A chatbot icon is present in the bottom right corner.

Pada bagian ini dijelaskan tentang pengenalan aplikasi Outsystems Service Studio, dimulai dari Overview sampai 1-Click Publish.

The screenshot shows the 'Intro to OutSystems Development' course page on the OutSystems Community platform. The page features a dark header with the OutSystems logo and navigation links. The course title 'Intro to OutSystems Development' is prominently displayed, along with a 4.6-star rating and 7,910 ratings. A 'Rate course' button is visible. The course description states it will get users introduced to Reactive Web Apps and Mobile Apps in OutSystems. A 'What will you learn?' section lists topics like Reactive Web and Mobile application development. A 'What do you need?' section lists requirements like a laptop with Windows 7 or higher and access to an OutSystems 11 server. On the right, a 'This course awards points' section indicates 4 points earned, and a 'Course Complete' section shows 100% completion. A chatbot icon is present in the bottom right corner.

Pada bagian ini dijelaskan tentang pengenalan Outsystems Development, juga diberi demo tentang cara membuat Reactive Web App dan Mobile App.

The screenshot shows the 'Modeling Data' course page on the OutSystems Community. The header includes the OutSystems logo and navigation links: My Platform, Tools, Learn, Community, and Support. A search bar and a 'Contact us' button are also present. The course title 'Modeling Data' is prominently displayed, followed by a 'Service Studio version' dropdown set to 'Windows only' and 'Cross-platform'. The course has a 4.7 star rating from 6,447 ratings and is 45 minutes long. A 'Rate course' button is visible. The main content area describes the course as an introductory guide to Data Modeling in OutSystems, covering Database Entities and Static Entities. It includes sections for 'What will you learn?' and 'What do you need?'. A sidebar on the right shows 'This course awards points' (+8 points), 'Course Complete' (100%), and 'This course is included in these Guided Paths: Reactive Web Developer'. A chatbot icon is also present.

Pada bagian ini dijelaskan tentang konsep Modelling Data, juga diberi demo tentang cara membuat Database Entities, menghubungkan nya bootstrap dengan excel, dan juga Static Entities.

The screenshot shows the 'Reactive UI Development 101' course page on the OutSystems Community. The header is identical to the first screenshot. The course title 'Reactive UI Development 101' is displayed, followed by a 'Service Studio version' dropdown set to 'Windows only' and 'Cross-platform'. The course has a 4.7 star rating from 5,646 ratings and is 45 minutes long. A 'Rate course' button is visible. The main content area describes the course as an introductory guide to Reactive UI Development in OutSystems, covering Reactive Web Screens and OutSystems widgets. It includes sections for 'What will you learn?' and 'What do you need?'. A sidebar on the right shows 'This course awards points' (+6 points), 'Your progress' (87%), and 'This course is included in these Guided Paths: Reactive Web Developer, Mobile Developer'. A chatbot icon is also present.

Pada bagian ini dijelaskan tentang konsep Reactive UI Development, juga diberi demo bagaimana menggunakan widget-widget pada UI Development tersebut.
